

## N5 Financial Accounting Question Papers June 2013

*The Journal of School Leadership is broadening the conversation about schools and leadership and is currently accepting manuscripts. We welcome manuscripts based on cutting-edge research from a wide variety of theoretical perspectives and methodological orientations. The editorial team is particularly interested in working with international authors, authors from traditionally marginalized populations, and in work that is relevant to practitioners around the world. Growing numbers of educators and professors look to the six bimonthly issues to: deal with problems directly related to contemporary school leadership practice teach courses on school leadership and policy use as a quality reference in writing articles about school leadership and improvement.*

*Corporate and Trust Structures: Legal and Illegal Dimensions is a collection of essays by experts in company law, trusts and financial crime. It explores the nature of companies and trusts, how they have been utilised for legitimate business purposes, and how they can be exploited by criminals for illegal purposes. Basic concepts relating to trusts and companies are considered, together with recent developments in corporate liability, including when liability may be attributed to companies and when the veil of limited liability may be lifted. Complex corporate structures, including the ownership structure of the Alibaba Group, are examined. The Panama Papers' revelations are also discussed together with the mechanisms within trusts and company structures that make them vulnerable and attractive for criminal abuse. The essayists address critical issues in the domestic and international contexts, including the requirements of the international standards against money laundering relevant to trusts and companies. Academics, lawyers, business people and policy-makers will find the essays topical and relevant.*
